

CITRUS FIBRE

Citrus fibre is a natural dietary fiber derived from citrus peels that offers a clean-label solution for a wide range of food applications. From retaining moisture in baked goods to emulsifying sauces, this versatile ingredient covers it all.

Applications

- Bakery
- Gluten-Free
- Fillings
- Plant-based

KEY FEATURES

- **Emulsification**
  Effective in thickening and stabilizing water-oil systems.
- **Texture Improvement**
  Enhances the texture and mouthfeel of food products.
- **Water Binding**
  Maintains moisture and extends shelf life by holding water tightly.

BENEFITS

Citrus fibre increases water content in formulations and enables effective gelling at room temperature without excessive stickiness. It helps extend shelf life by tightly binding water throughout the product's lifespan. As a clean label solution, it can replace modified starches, gums, and other stabilizers, making it especially useful for reducing or replacing functional ingredients like fats and eggs.
