KEY FEATURES

- **Salt reduction**

Enhances salt flavour, allowing for a 50% reduction in sodium levels.

- **Taste Enhancement**

Enhances savoury flavour, adds depth, and creates a full-bodied taste.

- **Clean-label**

Replaces artificial flavour enhancers such as MSG.

BENEFITS

Mushroom extract delivers a deeper, fuller, and more balanced flavour profile across a wide range of applications. As a natural flavour enhancer, it supports salt and sugar reduction by boosting savoury flavour notes. It also helps mask off-notes in plant-based proteins, making it ideal for high-protein and alternative meat applications. With a longer-lasting umami effect than MSG, it is an effective clean-label solution for flavour enhancement.
