

DOUGH RELAX AGENT (GSH)

Inactive dry yeast is a powdered form of yeast that has been deactivated through a drying process. This highly concentrated, natural reducing agent relaxes dough to improve machinability, reduce spring-back and enhance softness. It is a natural and clean label product that is simply labeled as ‘yeast’.

Applications

- Bread
- Pizza
- Rolls
- Tortilla

KEY FEATURES

- **Improved Extensibility**
  Enhances dough extensibility, enabling for easier shaping and stretching.
- **Reduced Mixing Time**
  Helps in relaxing the gluten network, resulting in more efficient kneading.
- **Optimized Texture**
  Results in a softer, smoother crumb in the finished baked goods.

BENEFITS

A clean label option, inactive yeast serves as an effective dough conditioner that offers an alternative to chemical equivalents. Its versatility across various products allows for consistent quality and improved texture in many types of baked goods. Our inactive yeast offers double the potency of those currently available on the market. This means you can use half as much and reduce costs significantly.
