KEY FEATURES

- **Air Retention**

Maintains volume in aerated product applications.

- **Water Binding**

Absorbs and holds water, improving final product moisture retention.

- **High Fibre Content**

Dietary fibre content of over 88%.

BENEFITS

Psyllium husk powder is a unique dietary fibre derived from plant seeds that offers nutritional enrichment and functionality to final products. Its strong water-binding and swelling capability, combined with its ability to support suspension and retain air, makes it the ideal addition to various applications. Psyllium husk can be easily incorporated to products by premixing with other dry ingredients or dispersed in water, improving texture while increasing dietary fibre content.
