SOLUBLE PROTEINS

Add protein to your food product without compromising on flavour or texture.

PEA PEPTIDE
CLEAR PROTEIN

A fully soluble and hydrolyzed protein, allowing for high inclusion rates with minimal sensory impacts.

RICE PEPTIDE
CLEAR PROTEIN

A fully soluble and hydrolyzed protein, allowing for high inclusion rates with minimal sensory impacts.

SMOOTH RICE PROTEIN

Easily dispersed protein with a balanced amino acid profile and smooth mouthfeel.

PEA PROTEIN

Allergen-free soluble protein derived from yellow split peas.

YEAST PROTEIN
PDCAAS SCORE 1.0

Produced through an efficient fermentation process, with an amino acid profile comparable to whey protein.

FABA PROTEIN

Contains all nine essential amino acids and contributes to fibre content.

Not sure where to start?

Our team can tailor the right solution for your product to maximize protein and meet your clean-label goals.

SMART INGREDIENTS, BETTER FOOD.
