

YEAST PROTEIN

Yeast protein is a highly digestible, complete protein with over 80% protein content and all essential amino acids. Its neutral flavour allows for easy incorporation across a wide range of applications, with minimal impact on taste and texture in final food products.

Applications

- Bakery
- Beverage
- Sauces
- Protein Bars

KEY FEATURES

- **Complete Amino Acid Profile**

Amino acid profile comparable to whey protein

- **Vegan & Allergen Free**

Plant-based and sustainable

- **Highly Soluble**

Soluble in solution with little to no grainy texture

BENEFITS

With a PDCAAS score of 1.0 and leucine and BCAA levels comparable to whey protein, yeast protein delivers high-quality nutrition on its own or when blended with other proteins to optimize nutritional and functional performance. Produced through an efficient fermentation process, it is a sustainable choice with a carbon footprint up to 20x lower than beef.
